

# USER STORIES

- **I want the app to work on all Android devices.**  
As a user I want the app to work on all my Android devices. Both tablets and phones, old devices and newer devices.
- **I want to earn points based on how much I use the bus**  
As a competitive bus commuter I want to earn points whenever i ride on a bus
- **I want to be able to see where all buses are**  
When I'm in a hurry I want to know where the buses are right now.
- **I want to be able to get info about my current trip**  
As a user of the app I would like to get some statistics about the trip I'm currently on.
- **I want to see my personal statistics**  
As a person who likes to see progress I prefer to be able to track all of my statistics in the application for easier evaluation of my travelling and CO2-saving.
- **I want to see info about all buses**  
As a user I want to be able to get all information about a specific bus when clicking on it.
- **I want to be able to get my personal info from Facebook**  
As a lazy user I want my application to be synced with Facebook so I don't have to enter my information twice.
- **I want to compete with my friends and see their score**  
As a competitive user I would like to compare my score with those of my friends and compete with them. I want to clearly see who is leading among my friends and me.
